2.1.2 Integration testing

2.1.3 End-to-end testing

2.1.4 The ice cream cone of test automation

2.1.5 Contract testing in the test automation pyramid

2.2 Does contract testing replace other types of tests?

2.3 Benefits of contract testing

2.3.1 Cost saving benefits

2.3.2 Quality benefits

2.3.3 Team benefits

2.4 Introducing contract testing to your teams

2.4.1 Start with Why

2.4.2 Start small and incrementally

2.4.3 Communicate benefits and progress visibly

2.4.4 Find allies or champions

2.5 Challenges with contract testing

2.5.1 Contract testing takes time

2.5.2 Contract testing requires a mindset shift

2.5.3 Lack of buy-in

2.5.4 More technical than other testing activities

2.5.5 Difficult when there are external teams

2.6 A practical guide on introducing contract testing to projects

2.6.1 Research what tools to use

2.6.2 Identify your consumers and providers

2.6.3 Define the contract

2.6.4 Write a basic consumer and provider contract test

2.6.5 Add contract testing to your CI/CD pipelines

3 A technical overview of contract testing
