4.3.3 Consumer contract

4.3.4 Writing the first consumer contract test

4.3.5 Other programming languages

4.4 Publishing the contract to Pact Broker

4.4.1 Committing all changes to GitHub

5 Implementing consumer-driven contract testing for mobile clients

5.1 Pact consumer setup for Android apps

5.1.1 Requirements

5.1.2 Mobile app implementation

5.2 Android consumer test implementation

5.3 Android consumer contract generation

5.3.1 Pact matchers

5.3.2 Pact POST requests

5.4 Chapter exercise

6 Implementing consumer-driven provider contract tests

6.1 Guidelines in writing provider contract tests

6.1.1 The focus of a provider contract test

6.1.2 Using provider states effectively

6.1.3 Using can-i-deploy to verify that you can safely deploy to production

6.2 Contract testing tooling setup for the provider

6.3 Provider contract tests between a web application and data provider

6.3.1 Writing the provider test

6.3.2 Introducing provider states

6.4 Provider contract tests between a mobile app and data provider

6.5 Chapter exercise

7 Contract testing for GraphQL
