```c
#include <stdio.h>

int main() {

    for (int i = 1; i <= 5; i++) {

        printf("%d\n", i);

    }

    return 0;

}
```

Explanation:

The loop starts with `i = 1`, and increments `i` until it is greater than 5, printing each value of `i`.

---

2. while Loop

The `while` loop repeats a block of code as long as the specified condition is true.

Syntax:

```c
while (condition) {

    // Code to be executed
```
