Higher-Dimensional Arrays

5.3 String Handling and Standard Library Functions

What are Strings?

Declaring Strings

Initializing Strings

String Input/Output

Standard String Library Functions (string.h)

String Manipulation Tips:

Conclusion

Chapter 6: Pointers and Memory Management

Understanding Pointers

Dynamic Memory Allocation

Pointer Arithmetic and Arrays

Common Pitfalls and Best Practices

Conclusion

Chapter 7: Structures and Unions

Defining Structures and Accessing Members

What is a Structure?
