```
char name[] = "Alice";
printf("Name: %s", name);
```

Standard String Library Functions (string.h)

The C Standard Library provides several functions for string manipulation. These functions are declared in the <string.h> header file.

strlen - String Length:
Returns the length of a string (excluding the null character).

```
char str[] = "Hello";
int length = strlen(str); // 5
```

1.

strcpy - String Copy:
Copies one string to another.

```
char source[] = "Hello";
char destination[10];
strcpy(destination, source);
```

2.
