```
printf("Enter elements:\n");
for (i = 0; i < n; i++) {
    scanf("%d", &arr[i]);  // Input into dynamically allocated array
}

printf("Elements are:\n");
for (i = 0; i < n; i++) {
    printf("%d ", arr[i]);
    }

    free(arr);  // Free allocated memory
    return 0;
}
```
