traces signal type *(continued)*
costs and benefits 39–41
instrumentation 36–37
Kubernetes 55
observability 41
open standards for backends 116
overview 34
telemetry 37–38
Zipkin 135
traces signal type. *See* distributed tracing
Tracetest 193
TSDBs (time series databases) 101–103

U

unified alerting 154
Uptrace 136
usage tracking, cloud operations 155–156
user experience, signal correlation 224
utilization, saturation, errors (USE) method, metrics 27

V

Vector open source project 91
VictoriaMetrics 106
Virtual Machines (VMs) 47–49
virtual private cloud (VPC) 63
virtual private network (VPN) 63
VPC (virtual private cloud) 63
VPN (virtual private network) 63

W

warm data, logs 25
waterfall visualization 35, 162
Weaveworks 6

Z

Zipkin 107, 135
