10 *Writing layouts and components 283*

10.1 Creating a layout 284

10.2 Writing your own components 291

Loading sample data 292 ▪ Linking components to scales 295 ▪ Adding component labels 298

10.3 Summary 301

11 *Big data visualization 303*

11.1 Big geodata 304

Creating random geodata 306 ▪ Drawing geodata with canvas 309 ▪ Mixed-mode rendering techniques 310

11.2 Big network data 316

11.3 Optimizing xy data selection with quadtrees 320

Generating random xy data 321 ▪ xy brushing 322

11.4 More optimization techniques 326

Avoid general opacity 326 ▪ Avoid general selections 326 Precalculate positions 327

11.5 Summary 327

12 *D3 on mobile*
