components
  adding labels 298
  linking to scales 295–298
  loading sample data 292–294
  overview 109
concat() function 286
console
  DOM in 14–16
  testing in 18
CSS (Cascading Style Sheets)
  DOM and 242
  overview 26–29
  project architecture and 79–80
CSV (Comma-Separated Values) 34
csv() function 35, 48

D

d3.carto.map 301
d3.geo.zoom 223
D3.js
  binding data 10–11
  data standards
    geographic data 36–37
    nested data 35
    network data 36
    objects 37–38
    raw data 37
    tabular data 34–35
  defined 4
  element appearance changes 11–12
  Hello World examples
    with circles 41–42
    conversation 42
    with divs 40–41
  information visualization standards 38–40
  overview 4–5
  uses for 5–10
D4 301
darker() function 89
data dashboard example
  bar chart 267
  brushing
    brush events 281
    creating brush 274–277
    making brush user friendly 278–281
    redrawing components 281
  circle pack 267–268
  hover events 270–274
  loading data 265–266
  overview 263–265
  resizing based on screen size 268–269
  spreadsheet 266–267
data flow
  binding data
    append() function 59
    attr() function 59
    data() function 58–59
    enter() function 59
    inline functions 59–61
    integrating scales 61–65
    selectall() function 58
    selections and 57–58
  formatting data
    categorical 51
    geometric 51
    overview 50
    quantitative 50–51
    raw 52
    temporal 51–52
    topological 51
  loading data
    formats and 48–50
    overview 47–48
  measuring data 56–57
  overview 47
  transforming data
    categorizing data 54
    changing datatypes 52–53
    nesting 55–56
    scaling 53–54
data standards
  geographic data 36–37
  nested data 35
  network data 36
  objects 37–38
  raw data 37
  tabular data 34–35
data() function 31, 58–59
data-driven design
  interactive style
    DOM manipulation 86–88
    events 82–84
    graphical transitions 84–86
    using color 88–94
  pregenerated content
    HTML fragments 95–97
    images 94–95
    SVG 98–103
  project architecture
    data 78–79
    external libraries 80–82
    images 79
    resources 79
    style sheets 79–80
degree centrality 192–193
delay() function 43, 84
dendrograms 8, 152
developer tools 16
discrete colors 92
 elements 10, 245–246
DOM (Document Object Model)
  canvas
    drawing with 249–250
    overview 248–249
    toDataURL() function 250–252
  in console 14–16
  CSS 242
  HTML 243
  image gallery example
    interactively highlighting elements 254–255
    overview 252–254
    selecting image 255
  interactive style and 86–88
  overview 12–14
  spreadsheet example
    animation 246–248
    using divs 245–246
    using table 243–244
domain() function 62
dsv() function 35
duration() function 84

E

each() function 86, 100, 119
edge weight 190
empty() function 99
enter() function 31–32, 58–59, 71
ESRI 207
events 82–84
exit() function 31, 71–73

F

filter() function 33
Firebug 16
Flash 4
force.drag() function 196
force.resume() function 195
force.start() function 195
force.stop() function 195
force.tick() function 195
force() function 185–186
