data quality key policy type 175
data quality metadata description standard 152
data quality reports for data interface 141
data quantum 57
data security key policy type 175
data usage key policy type 175
data use cases 109 – 114
    aligning data products with 115
    case description template 110 – 111
    choosing right team to own data 114
    model and bounded context 111 – 113
    setting up boundaries of use-case-driven data products 113 – 114
    Financial Analysis/Reporting data product 113
    Movie Trends data product 114
    Script Recommendations data product 113 – 114
data volume 36
data warehouses
    enterprise data warehouses 39 – 40
    inside data mesh 9
data wrangling 145
data-as-a-service model 203
data-product-owning team
    assigning responsibilities to 104 – 106
    data 105
    data pipelines, software, and source code 105
    enriching and aggregations 106
    quality, cleansing, and deduplication 106
    choosing right team to own data 106 – 108, 114
data-savvy software engineers 37 – 38
data-sharing agreement 159
Databricks 236 – 241
    architecture summary 240 – 241
    identifying components of data product 239 – 240
    identifying components of platform 238
    self-serve data platform architecture 236 – 238
    variations 240
    workflow considerations 240
