computational elements of data governance 22
data governance overview 164 – 167
data producers 216 – 217
defined 167
federating data governance 22, 179 – 188
centralized data governance model 180 – 181
decentralized data governance model 181
federated data governance model 181 – 187
setting-up governance team operations 187 – 188
making data governance computational 188 – 191
automating policy checks 190 – 191
making policies computational 189 – 190
planning outcomes 169 – 178
hierarchy of data governance outcomes 171
implementation-level outcomes 177 – 178
strategic-level outcomes 172 – 176
tactical-level outcomes 176 – 177
platform architecture 212
X as service 205
federated data governance model 181 – 187
decision space focus 182
governance structure focus 182
Messflix case study
central platform team 186
data governance council 183 – 184
data governance steering committee 184 – 185
data product owner 186 – 187
people focus 183
feedback reports 54
file-based data product 260 – 265
Financial Analysis/Reporting data product 113
findability 72, 152 – 154, 259, 263
findable, accessible, interoperable, reusable (FAIR) 152
FMCG (fast-moving consumer goods) example 32 – 33
friends 63
full lineage 147
functional requirements
