Exploring data with Databricks Assistant 84
Generating data profiles with AutoML 88
Using embeddings to understand unstructured data 91
Enhancing data retrieval with Databricks Vector Search 92
Flexibility in embedding model support 93
Setting up a vector search 93
Applying our learning 94
Technical requirements 94
Project: Favorita Store Sales – Time Series Forecasting 94
Project: Streaming Transactions 101
Project: RAG Chatbot 101
Project: Multilabel Image Classification 105
