Deep Learning (DL) 164
Delta 176
Delta Kernel connection ecosystem
benefits 9, 10
Databricks' lakehouse architecture speed 9
integration and control 8
time-travel versioning 9
Delta Lake Universal Format (Delta Lake UniForm) 5
Delta Live Tables (DLT) 49, 51, 79
benefits 52
data integrity, improving with 80, 81
features 52
pipeline configuration 61, 62
streaming table created with DLT, querying 63
used, for Bronze data 53
Delta tables 92
Liquid Clustering 54
maintaining 54
OPTIMIZE command 55
optimizing 54
predictive optimization 55
VACUUM command 54
DI Platform
planning 20
Directed Acyclic Graph (DAG) 53
Distributed Data Parallel (DDP) 164
DLT pipeline
bronze table, generating 63
methods 62

E

embeddings 91
using 92
using, for unstructured data 91
evaluation workflow
chatbot responses, evaluating 211-214
setting up 206-211
experiments, with MLflow
Databricks LLM Playground 148-150
data, integrating via Marketplace 147
external data and models, integrating 146
tracking 144-146
experiment tracking 28
exploratory data analysis (EDA) 88

F

Favorita Baseline Model
building 151
creating, with AutoML 154-157
training set, building 151-154
Favorita Store Sales project 13, 64, 65, 94, 95, 183-186
AutoML, for data exploration 96-99
multilabel image classification 105, 106
oil price data, cleaning 99, 100
oil price data, exploring 99, 100
RAG chatbot 101-105
Streaming Transactions 41-43
time series forecasting 40, 41
transactions, streaming 101
feature tables 112
training set, building with 142, 143
Foundation Model APIs (FMAPIs) 69, 231
pay-per-token 69
provisioned throughput 69
Fully Shared Data Parallel (FSDP) 164

G

generative artificial intelligence (GenAI) 4, 45, 65, 85, 141
GitHub 176
