building 219
Google Cloud Storage (GCS) 23

H

Hugging Face (HF) 231
HyperOpt 157
hyperparameters 141

I

Infrastructure as Code (IaC) 179

K

Kaggle setup 32, 33
code base, setting up 37
compatibility, checking 38
compute, creating 34-36
Databricks CLI and secrets, setting up 37
default catalog, setting up 39
GitHub repository, setting up 33, 34
permissions, granting 39
project-specific database, setting up 39
variables, passing via widgets 38
volumes, setting up 40

L

Lakehouse Monitoring 12
Lakeview dashboards
leveraging 219-221
Large Language Models (LLMs) 148
incorporating, for analysts with SQL AI Functions 231-235
Light Gradient-Boosting Machine (LightGBM) 12

M

machine learning (ML) projects 81
Machine Learning Operations (MLOps) 175
Medallion architecture pattern 25, 49, 50
metastore
data 23
selecting 22, 23
source control 24, 25
MLflow Tracking 141
MLOps inner loop
collaborative development 176, 177
deploying 176
model, registering 176
MLOps outer loop
DABs 179, 180
deploying 177
REST API 180
workflows 178, 179
model
connecting, to applications 231
deploying 180
inference 180, 181
monitoring 218, 219
serving 181, 182
multi-hop architecture 25
multilabel classification model
fine-tuning 164
scoring 168-172
training 164-168
Multilabel Image Classification (MIC) 14, 45, 71, 72, 197-204
data loaders 72, 73
data, optimizing 73, 74
