

Azure Databricks Cookbook

Phani Raj , Vinod Jaiswal

ISBN: 97-81-78980-971-8

- Build a modern data warehouse with Delta tables and Azure Synapse Analytics
- Create real-time dashboards in Databricks SQL
- Implement data governance with Unity Catalog
- Build end-to-end data processing pipelines for near real-time data analytics
- Integrate Azure DevOps for version control as well as for deploying and productionizing solutions with continuous integration and continuous deployment (CI/CD) pipelines
- Enhance Azure Databricks with OpenAI and Microsoft Fabric integration for cutting-edge data solutions
