5.7.1. Class inheritance can be awkward
5.7.2. Writing a mixin
5.7.3. Example: enumerable mixin
5.7.4. Mixins from null
5.8. Putting it together
5.8.1. Exercise
5.9. Summary
Chapter 6. Composing functions
6.1. Clarity
6.1.1. Functions are descriptions
6.1.2. Where arguments need parentheses
6.1.3. Higher-order functions revisited
6.2. State and mutability
6.2.1. Variables, assignment, and side effects
6.2.2. Local state and shared state
6.2.3. Encapsulating state with objects
6.2.4. World state
6.3. Abstraction
6.3.1. Extracting common code
6.3.2. Adding common code
6.3.3. Recursion
6.4. Combinators
6.4.1. Compose
6.4.2. Before and after
