9.4.3. Composing event streams
9.4.4. Client side
9.4.5. Multiple event sources
9.5. Summary
3. Applications
Chapter 10. Driving with tests
10.1. No tests? Disaster awaits
What happens when you don’t write tests?
10.2. How to write tests
10.2.1. Assertions
10.2.2. How to unit test
10.2.3. Rinse and repeat
10.2.4. Feedback
10.3. Dependencies
10.3.1. Why dependencies make testing difficult
10.3.2. Test doubles
10.3.3. Avoiding dependency injection hell
10.4. Testing the asynchronous
10.4.1. Live with it
10.4.2. Remove it
10.4.3. Expect it
10.4.4. Exercise
10.5. System tests
10.6. Test suites
